Strategy phase. Organizational phase. Implementation phase. Development agencies researched. Alphabetical list of interviewees.
Sommario/riassunto	In August 2005, Hurricane Katrina, followed by multiple levee failures, devastated New Orleans and other parts of the U.S. Gulf Coast, inflicting major damage to commercial property, infrastructure, and housing. The failure of the levees and the subsequent flooding of New Orleans caused enormous damage and disruption to the city, its

people, and its economy. Recovering from a disaster of this magnitude poses a major challenge to the city, the state, and the nation. The complexity of this challenge is compounded by the fact that New Orleans' population and economy had been lagging for several d
