Sommario/riassunto	After several months of heavy fighting, Mosul has been liberated. However, this will not mark the complete defeat of IS in Iraq, nor will it signal the end of the crisis affecting the country. What will be the fate of the city and of the other liberated territories? Could this victory re-ignite competition among Iraq's various ethno-sectarian communities? And how could this impact on the Iraqi Kurdistan region? What are the interests and agendas of the main regional and international players? This volume sketches out possible answers through a multi-pronged approach, bringing to light the complexity of the Iraqi scenario and the influence exerted over it by a broad array of internal and external actors.
