Nota di bibliografia	Includes bibliographical references
Nota di contenuto	1. Changes in the media-politics relationship -- 2. News media and European integration: what do we know? -- 3. Effects of news and information on public support of (or aversion to) European integration -- 4. European integration, public opinion, and the media -- 5. Why do the media matter? -- 6. Who is to blame? the role of the media -- 7. Communicating Europe: current policy initiatives -- 8. Next: making communication a central component of embedding Europe.
Sommario/riassunto	Our current understanding of public support for (or reluctance towards) advances in European integration sorely misses the role of the media. The media play a crucial role in the intersection between citizens and politics, but in the context of European integration, we only have limited knowledge about how they cover European issues and what the effects are on public support for and legitimacy of advances in European integration.
