Edizione	[First edition.]
Descrizione fisica	1 online resource (viii, 376p. ) : ill
Disciplina	333.7/2
Soggetti	Environmentalism Ecology - Philosophy - History Environmental protection - Philosophy - History Nature conservation - Philosophy - History
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Simultaneously published in the USA and Canada.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Modern Environmentalism presents a comprehensive introduction to environmentalism, the origins of its main beliefs and ideas, and how these relate to modern environmental ideologies. Providing a historical overview of the development of attitudes to nature and the environment in society, the book examines key environmentalist ideas, influences and movements. Science's role in mediating our view of nature is emphasised throughout. This entirely new account draws on the explosion of writing on socio-environment relations since Pepper's earlier work, The Roots of Modern Environmentalism.
