

1. Record Nr.	UNINA9910222243103321
Titolo	Emissions of air pollutants : measurements, calculations and uncertainties // Rainer Friedrich, Stefan Reis (eds.) [[electronic resource]]
Pubbl/distr/stampa	Berlin ; ; New York, : Springer, c2004
Descrizione fisica	1 online resource (xvii, 335 p.) : ill., maps ;
Altri autori (Persone)	FriedrichR (Rainer) ReisStefan <1968->
Disciplina	628.5/3/0287
Soggetti	Air - Pollution - Measurement Civil & Environmental Engineering Engineering & Applied Sciences Environmental Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	1. Introduction and summary -- 1.1 Aims of this book -- 1.2 Summary -- 1.3 Anthropogenic emissions of ammonia -- 1.4 Emissions of particulate matter to the atmosphere -- 1.5 Assessment of the quality of emission data -- 1.6 Improvement and application of emission models and tools -- 1.7 Outlook -- 1.8 References -- 2. Improvement of emission factors -- 2.1 Introduction -- 2.2 Emissions of volatile organic compounds (VOC) -- 2.3 Emissions of particulate matter -- 2.4 Emissions of ammonia -- 2.5 References -- 3. Uncertainties, validation and verification -- 3.1 Introduction -- 3.2 Uncertainty analysis -- 3.3 Comparisons of emissions -- 3.4 Sensitivity analysis -- 3.5 References -- 3.6 Annex -- 4. Emission models and tools -- 4.1 Introduction -- 4.2 Land cover and topography mapping -- 4.3 EMIMO: An emission model -- 4.4 MIMOSA: A road emission model using average speeds from a multi-modal traffic flow model -- 4.5 Improvement and application of methodology and models to calculate multiscale high resolution emission data for Germany and Europe -- 4.6 Developing emission inventories for Turkey -- 4.7 References.
