

1. Record Nr.	UNINA9910224379903321
Titolo	2017 8th Annual Industrial Automation and Electromechanical Engineering Conference (IEMECON) / / Satyajit Chakrabarti, Himadri Nath Saha, editors
Pubbl/distr/stampa	Piscataway : , : IEEE, , 2017
ISBN	1-5386-2215-7
Descrizione fisica	1 online resource : illustrations
Disciplina	621.3
Soggetti	Electromechanical devices Electrical engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	IEMECON 2017 will provide an opportunity for researchers, educators and students to discuss and exchange ideas on issues, trends, and developments in Industrial Automation and Electromechanical Engineering The conference aims to bring together scholars from different disciplinary backgrounds to emphasize dissemination of ongoing research in the fields of in Industrial Automation and Electromechanical Engineering Automation is the latest trending technology in many fields especially in industries like manufacturing, control systems, mining, etc The current era fully rolled out with many new automation technologies In such case, more automation companies and industries were newly introduced within the market which obviously shows the market growth of automation.
