Formato	Materiale a stampa
Livello bibliografico	Periodico
Sommario/riassunto	"The NILR presents top legal scholarship, prepared by law students and legal experts, side-by-side with the thoughts and critiques of Northwestern University undergraduates. By facilitating undergraduate involvement in legal discourse and emphasizing a strong interdisciplinary paradigm, the NILR seeks to both broaden the audience for legal debate and make a substantive contribution to legal academia."-- Roberta Buffett Center for International and Comparative Studies law review website
