Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1: Terms in Search for a Theoretical Definition -- Chapter 2: Field Theory -- Chapter 3: The Political Field in the Operational Area -- Chapter 4: Field Operations as Information Warfare and Operationalisation of Theory -- Chapter 5: The Pre-War Strategic Situation in the Balkans from a Field Theory Perspective -- Chapter 6: The Events in 1990 -- Chapter 7: The Events in 1991 -- Chapter 8: The Events in 1992 -- Chapter 9: Epilogue: Beyond 1992 -- Chapter 10: Conclusions of the Empirical Example -- Chapter 11: Post Scriptum: Hybrid Warfare and the Yugoslavian Blueprint. .
Sommario/riassunto	This book is open access under a CC BY 4.0 license. This book uses Pierre Bourdieu's field theory as a lens through which to examine military operations. Novel in its approach, this innovative text provides a better, more nuanced understanding of the modern 'battlespace', particularly in instances of prolonged low-intensity conflict. Formed in two parts, this book primarily explores the scope of Bourdieu theory before secondly providing a detailed case study of the Yugoslavian succession war of 1990-1992. Gunneriusson suggests that although theories do not necessarily provide answers, they do help us ask better

questions. This volume suggests new lines of interdisciplinary investigation that will be of interest to members of armed forces, practitioners from NGOs, and policymakers.
