4 Critiques and Debates : 4.1 Introduction -- 4.2 Is everything that's called a capability genuinely a capability? -- 4.3 Should we commit to a specific list of capabilities? -- 4.4 Why not use the notion of needs? -- 4.5 Does the capability approach only address the government? -- 4.6 Is the capability approach too individualistic? -- 4.6.1 Different forms of individualism -- 4.6.2 Does the capability approach pay sufficient attention to groups? -- 4.6.3 Social structures, norms and institutions in the capability approach -- 4.7 What about power and political economy? -- 4.7.1 Which account of power and choice? -- 4.7.2 Should we prioritise analysing the political economy? -- 4.8 Is the capability approach a liberal theory? -- 4.9 Why 'human development' is not the same idea -- 4.10 Can the capability approach change welfare economics? -- 4.10.1 Welfare economics and the economics discipline -- 4.10.2 Non-welfarism -- 4.10.3 Empirical possibilities and challenges -- 4.10.4 Towards a heterodox capabilitarian welfare economics? -- 4.11 Taking stock.

5 Which Future for the Capability Approach? References -- Index.

and social justice? How do we develop policies that offer everyone the best chance to achieve what they want from life? The capability approach, a theoretical framework pioneered by the philosopher and economist Amartya Sen in the 1980s, has become an increasingly influential way to think about these issues. This book is both an introduction to the capability approach and a thorough evaluation of the challenges and disputes that have engrossed the scholars who have developed it. The author offers her own illuminating and rigorously interdisciplinary interpretation, arguing that by appreciating the distinction between the general capability approach and more specific capability theories or applications we can create a powerful and flexible tool for use in a variety of academic disciplines and fields of policymaking. This book provides an original and comprehensive account that will appeal to scholars of the capability approach, new readers looking for an interdisciplinary introduction, and those interested in theories of justice, human rights, basic needs, and the human development approach.
