Titolo	Constructed Wetlands for Pollution Control : : Processes, Performance, Design and Operation // H. Brix, Robert H. Kadlec, J. Vymazal, P. Cooper, R. Knight, R. Haberl
Pubbl/distr/stampa	London : , : IWA Publishing, , 2000
Descrizione fisica	1 online resource (1 p.)
Soggetti	Industrial applications of scientific research & technological innovation Water supply & treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The book presents a comprehensive up-to-date survey of wetland design techniques and operational experience from treatment wetlands. This book is the first and only global synthesis of information related to constructed treatment wetlands. Types of constructed wetlands, major design parameters, role of vegetation, hydraulic patterns, loadings, treatment efficiency, construction, operation and maintenance costs are discussed in depth. History of the use of constructed wetlands and case studies from various parts of the world are included as well. Constructed Wetlands for Pollution Control will be indispensable for wastewater treatment researchers and designers, decision makers in public authorities, wetland engineers, environmentalists and landscape ecologists.</p>
