

1. Record Nr.	UNINA9910247060403321
Titolo	Mathematical programming computation
Pubbl/distr/stampa	Berlin : , : Springer-Verlag, , 2009-
ISSN	1867-2957
Descrizione fisica	1 online resource
Disciplina	519.7
Soggetti	Programming (Mathematics) Mathematics - Data processing Programmation (Mathématiques) Mathématiques - Informatique Periodical periodicals. Periodicals. Périodiques.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Sommario/riassunto	This scholarly journal publishes articles on computational issues in mathematical programming. Articles report on innovative software, comparative tests, modeling environments, libraries of data, and applications. Coverage includes linear programming, convex optimization, nonlinear programming, stochastic and robust optimization, integer programming, combinatorial optimization, network algorithms, and global optimization.
