

1. Record Nr.	UNINA9910249953603321
Autore	Killeen Timothy J.
Titolo	A perfect storm in the Amazon wilderness : development and conservation in the context of the Initiative for the Integration of the Regional Infrastructure of South America (IIRSA) / / Timothy J. Killeen
Pubbl/distr/stampa	Arlington, VA : , : Conservation International, , 2007
Descrizione fisica	1 online resource
Collana	Advances in applied biodiversity science; ; 7.
Soggetti	Conservation of natural resources Sustainable development Amazon River Region
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (pages) and index.
Nota di contenuto	Acknowledgements Preface Executive summary Introduction The drivers of change Biodiversity Ecosystem services Social landscapes Environmental and social evaluation and mitigation Avoiding the end of the Amazon
Sommario/riassunto	The ongoing changes that threaten the Amazon Wilderness - agriculture, logging, climate change - will likely be intensified under a South American initiative to build roads and other infrastructure across the continent. A Perfect Storm in the Amazon Wilderness: Development and Conservation in the Context of the Initiative for the Integration of the Regional Infrastructure of South America (IIRSA) is a new publication by CABS scientist Tim Killeen, who reviews the impact of this initiative on the biodiversity and communities of the region and proposes strategies for how IIRSA, as a visionary and much-needed plan for economic development, could be even more effective for the long-term conservation and wealth of the region
