

1. Record Nr.	UNINA9910253886203321
Autore	Hamada Alaa
Titolo	Varicocele and Male Infertility : Current Concepts, Controversies and Consensus // by Alaa Hamada, Sandro C. Esteves, Ashok Agarwal
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-24936-3
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (112 p.)
Collana	SpringerBriefs in Reproductive Biology, , 2194-4261
Disciplina	616.67
Soggetti	Reproductive health Urology Blood-vessels - Surgery Reproductive Medicine Vascular Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Definitions and Epidemiology -- Origin and Pathophysiology. - Association Between Varicocele and Infertility -- Varicocele Classification -- Treatment Modalities.- Subclinical Varicocele -- Varicocele in Adolescents -- Effect of Varicocele Treatment -- Varicocele and Azoospermia -- Cost-effectiveness of Varicocele Treatment -- Guidelines and Best Practice Statements for the Evaluation and Management of Infertile Adult and Adolescent Males with Varicocele. .
Sommario/riassunto	This SpringerBrief analyzes varicocele from a novel approach, and provides the reader with a comprehensive view of its scientific and clinical significance. The Brief covers all the important aspects of varicocele related to infertility, from epidemiology to assisted reproduction techniques, contemplating pathophysiology, semen analysis, specialized sperm function tests, and clinical management including all available treatment options from three distinct perspectives, i.e., current concepts, consensus and controversies. Each topic is addressed using the same template, offering the best information from all angles to readers. This SpringerBrief is aimed at

both clinicians and scientists involved in the study and care of male and female fertility, and is written by a team of three internationally recognized authors with expertise in andrology and male infertility. The text is the first of its kind, and presents an invaluable tool both for the basic scientists with an interest in reproductive medicine and for clinicians working in the field of infertility.
