| Nota di contenuto | Contents; Foreword; Acknowledgments; Contributors; Abbreviations and Acronyms; Map of Vietnam; 1. An Overview of Economic Growth and Household Welfare in Vietnam in the 1990's; Part I. Vietnam's Economic Performance in the 1990's; 2. Reform, Growth, and Poverty; 3. The Wage Labor Market and Inequality in Vietnam; 4. Household Enterprises in Vietnam: Survival, Growth, and Living Standards; 5. Agriculture and Income Distribution in Rural Vietnam under Economic Reforms: A Tale of Two Regions; Part II. Poverty Reduction in Vietnam in the 1990's 6. The Static and Dynamic Incidence of Vietnam's Public Safety Net 7. The Spatial Distribution of Poverty in Vietnam and the Potential for Targeting; 8. Ethnic Minority Development in Vietnam: A Socioeconomic Perspective; Part III. Progress in Health and Education in Vietnam in the 1990's; 9. Poverty and Survival Prospects of Vietnamese Children under Doi Moi; 10. Child Nutrition, Economic Growth, and the Provision of |

Health Care Services in Vietnam; 11. Patterns of Health Care Use in Vietnam: Analysis of 1998 Vietnam Living Standards Survey Data; 12. Trends in the Education Sector
13. An Investigation of the Determinants of School Progress and Academic Achievement in Vietnam Part IV. Other Topics; 14. Child Labor in Transition in Vietnam; 15. Economic Mobility in Vietnam; 16. Private Interhousehold Transfers in Vietnam; List of Figures, Maps, and Tables; Figures; 2.1 Per Capita GDP Growth Rates, 1960's to 1990's; 2.2 Convergence and Divergence in Per Capita GDP Growth Rates in the 1990's; 2.3 Economic Growth and Income of the Poor; 2.4 Increased Trade and Changes in Inequality; 2.5 Indicators of Vietnam's Reforms: Mid-1980's to Late 1990's
2.6 Effect of Economic Reform on Poverty, 1988-98 2.7 Poverty Reduction and Growth Rate in India, Vietnam, and China, 1992-98; 2.8 Conditional Convergence, 1995-2035; 2.9 Governance Pentagons: Vietnam, India, Thailand, Myanmar, and China; 2.10 Global Competitiveness Report Rankings: Vietnam, China, and India; 2.11 Maritime Transport to the United States (West Coast): Garments; 2.12 Foreign Direct Investment as a Share of GDP, 1998; 2.13 Foreign Direct Investment in Vietnam in the 1990's; 3.1 Economic Growth in Vietnam 3.2 Levels of Schooling versus Labor Market Returns to Schooling by Region, 1998 3.3 Agricultural Labor Force Compared with Income Level; 4.1 Household Choices in 1993 and 1998; 5.1 Composition of Income, Vietnam; 5.2 Trends in Rice Production; 5.3 Trends in Total Agricultural Output; 5.4 The Distributional Impact of Changes in Rice Prices, Rural North; 5.5 The Distributional Impact of Changes in Rice Prices, Rural South; 7.1 Provincial Poverty Headcounts Estimated Using Urban-Rural and Stratum-Level Regression Models
7.2 Receiver Operating Characteristic Curves for Selected Targeting Variables

| Sommario/riassunto | The aim of the Protein Reviews is to serve as a publication vehicle for review articles that focus on crucial current vigorous aspects of protein structure, function, evolution and genetics. The volumes will appear online before they are published in a printed book. Articles are selected according to their importance to the understanding of biological systems, their relevance to the unravelling of issues associated with health and disease or their impact on scientific or technological advances and developments. Volume 19 focusses on Purinergic receptors, also termed purinoceptors. These are plasma membrane |

proteins present in nearly all mammalian tissues. They participate in a number of cell functions that include proliferation and migration of neural stem cells, vascular reactivity, apoptosis and cytokine secretion and have been associated with learning and memory, feeding conduct, movement and sleep. They facilitate relaxation of smooth muscle of the gut in response to adenosine (P1 receptors) or ATP (P2 receptors). The chapters in this volume are authored by experts in the field. They deal with aspects of structure and biological activity of selected receptor proteins. The first chapter in this volume reviews the current research on the Mechanism of channel gating and regulation of the activity of calcium-activated chloride channel ANO1. This is followed by a chapter dealing with Structure and function of the two-component cytotoxins of *Staphylococcus aureus* and a chapter on Membrane Fusion and Infection involving the Influenza virus Hemagglutinin. The fourth chapter reviews the impact of arrhythmogenic mutations through the structural determination of the L-type voltage-gated calcium channel. Then there is a chapter that discusses some open questions pertaining to histone post-translational modifications and nucleosome organization in transcriptional regulation. The next chapter deals with regulation of the extracellular SERPINA5 (protein C inhibitor) penetration through cellular membranes. This is followed by a chapter on coding of Class I and II aminoacyl-tRNA synthetases; a chapter on regulation of nephrin phosphorylation in diabetes and chronic kidney injury and a chapter on The Structure-Forming Juncture in oxidative protein folding and the events in the ER. Finally the last chapter deals with the polyspecificity of anti-lipid antibodies and its relevance to the development of autoimmunity. This volume is intended for research scientists, clinicians, physicians and graduate students in the fields of biochemistry, cell biology, molecular biology, immunology and genetics. .
