

1. Record Nr.	UNINA9910253965403321
Titolo	Information Systems Architecture and Technology: Proceedings of 36th International Conference on Information Systems Architecture and Technology – ISAT 2015 – Part III // edited by Jerzy witek, Leszek Borzemski, Adam Grzech, Zofia Wilimowska
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-28564-5
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (219 p.)
Collana	Advances in Intelligent Systems and Computing, , 2194-5357 ; ; 431
Disciplina	620
Soggetti	Electrical engineering Computers Management information systems Communications Engineering, Networks Information Systems and Communication Service Business Information Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Mobile and SOA Systems -- High Performance and Cloud Computing -- Knowledge Discovery and Data Mining -- Knowledge Discovery and Data Mining -- Knowledge Based Management.
Sommario/riassunto	This four volume set of books constitutes the proceedings of the 36th International Conference Information Systems Architecture and Technology 2015, or ISAT 2015 for short, held on September 20–22, 2015 in Karpacz, Poland. The conference was organized by the Computer Science and Management Systems Departments, Faculty of Computer Science and Management, Wroclaw University of Technology, Poland. The papers included in the proceedings have been subject to a thorough review process by highly qualified peer reviewers. The accepted papers have been grouped into four parts: Part I—addressing topics including, but not limited to, systems analysis and modeling, methods for managing complex planning environment and insights from Big Data research projects. Part II—discussing about topics

including, but not limited to, Web systems, computer networks, distributed computing, and multi-agent systems and Internet of Things. Part III—discussing topics including, but not limited to, mobile and Service Oriented Architecture systems, high performance computing, cloud computing, knowledge discovery, data mining and knowledge based management. Part IV—dealing with topics including, but not limited to, finance, logistics and market problems, and artificial intelligence methods.
