

1. Record Nr.	UNINA9910254071303321
Autore	Barbu Viorel
Titolo	Differential Equations // by Viorel Barbu
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-45261-4
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (XI, 224 p. 16 illus.)
Collana	Springer Undergraduate Mathematics Series, , 1615-2085
Disciplina	515.353
Soggetti	Differential equations System theory Differential equations, Partial Ordinary Differential Equations Systems Theory, Control Partial Differential Equations
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- Existence and uniqueness for the Cauchy problem -- Systems of linear differential equations -- Stability theory -- Prime integrals and first-order partial differential equations.
Sommario/riassunto	This textbook is a comprehensive treatment of ordinary differential equations, concisely presenting basic and essential results in a rigorous manner. Including various examples from physics, mechanics, natural sciences, engineering and automatic theory, Differential Equations is a bridge between the abstract theory of differential equations and applied systems theory. Particular attention is given to the existence and uniqueness of the Cauchy problem, linear differential systems, stability theory and applications to first-order partial differential equations. Upper undergraduate students and researchers in applied mathematics and systems theory with a background in advanced calculus will find this book particularly useful. Supplementary topics are covered in an appendix enabling the book to be completely self-contained.
