

1. Record Nr.	UNINA9910254083603321
Titolo	Software for Exascale Computing - SPPEXA 2013-2015 // edited by Hans-Joachim Bungartz, Philipp Neumann, Wolfgang E. Nagel
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-40528-4
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (X, 565 p. 198 illus., 171 illus. in color.)
Collana	Lecture Notes in Computational Science and Engineering, , 1439-7358 ; ; 113
Disciplina	004.11
Soggetti	Computer simulation Computer software—Reusability Computer mathematics Input-output equipment (Computers) Applied mathematics Engineering mathematics Physics Simulation and Modeling Performance and Reliability Computational Science and Engineering Input/Output and Data Communications Mathematical and Computational Engineering Numerical and Computational Physics, Simulation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Sommario/riassunto	The research and its outcomes presented in this collection focus on various aspects of high-performance computing (HPC) software and its development which is confronted with various challenges as today's supercomputer technology heads towards exascale computing. The individual chapters address one or more of the research directions (1) computational algorithms, (2) system software, (3) application software, (4) data management and exploration, (5) programming, and (6)

software tools. The collection thereby highlights pioneering research findings as well as innovative concepts in exascale software development that have been conducted under the umbrella of the priority programme "Software for Exascale Computing" (SPPEXA) of the German Research Foundation (DFG) and that have been presented at the SPPEXA Symposium, Jan 25-27 2016, in Munich. The book has an interdisciplinary appeal: scholars from computational sub-fields in computer science, mathematics, physics, or engineering will find it of particular interest.
