Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Since 1995, amateur, commercial, and professional bakers have competed in the National Pie Championships to determine who makes the best pies in America. America's Best Harvest Pies is a collection of 70 delicious recipes that have won awards at the National Pie Championships. Organized by harvest crop--apple, pumpkin, raspberry, strawberry, peach, sweet potato, and more--the recipes in this book are sure to inspire a baking frenzy. Bakers will find a selection of unique recipes, such as Peanut Butter-n-Strawberry Explosion Pie and Sweet Tart Cherry Pie. But the classics are well-represented too, with plenty of two-crust, one-crust, and crumb-topped favorites. America's Best Harvest Pies is packed with color photographs of the pies you'll learn to make and love. As a special treat to give you a taste of what the championships are like, many of the photographs are of the actual pies entered in the competition. The recipes inside are clearly explained so that the expert and the future expert pie-maker can enjoy alike. Strawberry pies in summer and pumpkin pies in the fall--with this book you'll be serving your friends and family pie all year long Skyhorse Publishing, along with our Good Books and Arcade imprints, is proud to publish a broad range of cookbooks, including books on juicing, grilling, baking, frying, home brewing and winemaking, slow cookers, and cast iron cooking. We've been successful with books on gluten-free cooking, vegetarian and vegan cooking, paleo, raw foods, and more. Our list includes French</p>

cooking, Swedish cooking, Austrian and German cooking, Cajun cooking, as well as books on jerky, canning and preserving, peanut butter, meatballs, oil and vinegar, bone broth, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Sommario/riassunto	This book offers a snapshot of the state-of-the-art in classification at the interface between statistics, computer science and application fields. The contributions span a broad spectrum, from theoretical

developments to practical applications; they all share a strong computational component. The topics addressed are from the following fields: Statistics and Data Analysis; Machine Learning and Knowledge Discovery; Data Analysis in Marketing; Data Analysis in Finance and Economics; Data Analysis in Medicine and the Life Sciences; Data Analysis in the Social, Behavioural, and Health Care Sciences; Data Analysis in Interdisciplinary Domains; Classification and Subject Indexing in Library and Information Science. The book presents selected papers from the Second European Conference on Data Analysis, held at Jacobs University Bremen in July 2014. This conference unites diverse researchers in the pursuit of a common topic, creating truly unique synergies in the process.p>.
