

1. Record Nr.	UNINA9910254119203321
Titolo	Ecosystem-based disaster risk reduction and adaptation in practice [[electronic resource] /] / edited by Fabrice G. Renaud, Karen Sudmeier-Rieux, Marisol Estrella, Udo Nehren
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-43633-3
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (XXII, 598 p. 130 illus., 100 illus. in color.)
Collana	Advances in Natural and Technological Hazards Research, , 1878-9897 ; ; 42
Disciplina	363.3480973
Soggetti	Natural disasters Ecosystems Climate change Natural Hazards Climate Change
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Foreword -- Introduction: practical and policy uptake of Eco-DRR globally: Where do we stand? -- ecosystems as climate-compatible development infrastructure: making the case for ecosystem-based investments in coastal zones of Kenya & Sri Lanka -- The adaptive economy of Eco-DRR: a South Pacific example of climate change adaptation.
Sommario/riassunto	This book is a compilation of recent developments in the field of ecosystem-based disaster risk reduction and climate change adaption (Eco-DRR/CCA) globally. It provides further evidence that ecosystem-based approaches make economic sense, and showcases how research has progressively filled knowledge gaps about translating this concept into practice. It presents a number of methods, and tools that illustrate how Eco-DRR/CCA has been applied for various ecosystems and hazard contexts around the world. It also discusses how innovative institutional arrangements and policies are shaping the field of Eco-DRR/CCA. The book is of relevance to scientists, practitioners, policy-makers and students in the field of ecosystem management for disaster

risk reduction and climate change adaptation.
