

1. Record Nr.	UNINA9910254120003321
Autore	Bahrainy Hossein
Titolo	Toward an Integrative Theory of Urban Design // by Hossein Bahrainy, Ameneh Bakhtiar
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-32665-1
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (120 p.)
Collana	University of Tehran Science and Humanities Series, , 2367-1092
Disciplina	307.1201
Soggetti	Urban geography Architecture Building Structural analysis (Engineering) Urban Geography / Urbanism (inc. megacities, cities, towns) Architecture, general Building Construction and Design
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Urban Design Definition, Knowledge Base and Principles -- Urban Design Theory -- Urban Design Language -- Integrative Language of Urban Design.
Sommario/riassunto	This book takes a bold epistemological approach to address the fundamental questions that urban design has faced since its inception – questions concerning its legitimacy, definition, nature, content, purpose, theory, methods, jurisdiction and above all its knowledge base. The appropriate level of urban design – global or local – is another critical and emerging question discussed. At the end, an integrative theory of urban design is introduced, on the basis of which a set of principles is developed for application by practicing urban designers. These principles are presented at three essential levels: general, global and local-Iranian. Toward an Integrative Theory of Urban Design is intended to dispel many of the ambiguities still troubling urban design as a discipline and profession.
