Sommario/riassunto	Most historians of Zionism - from the 'Jerusalem School' and its followers, as well as those who call themselves 'new historians' - understand the story of Israel's establishment as a part of a broader historic story that encompasses hundreds and even thousands of years. They consider the Zionist leadership to be a unified entity and thus relate the decision to establish the state of Israel during May 1948 to international, rather than internal, restraints and challenges. The author of this ...

Nota di contenuto	Part I: Fundamentals and Elasticity -- 1 Time derivatives in material and spatial description -- What are the differences and why do they concern us? -- 2 The Cosserats' memoir of 1896 on elasticity -- 3 On equivalent inhomogeneities for particles with multiple-component interphases -- The influence of distributed dislocations on large deformations of an elastic sphere -- 4 Part II: Visco-Elastic Media and Coupled Phenomena -- 5 A closed-form solution for a linear visco-elastic self-gravitating sphere.
Sommario/riassunto	This volume presents a collection of contributions on advanced approaches of continuum mechanics, which were written to celebrate the 60th birthday of Prof. Holm Altenbach. The contributions are on topics related to the theoretical foundations for the analysis of rods, shells and three-dimensional solids, formulation of constitutive models for advanced materials, as well as development of new approaches to

the modeling of damage and fractures.
