

1. Record Nr.	UNINA9910254269203321
Titolo	Management of Bleeding Patients // edited by Jun Teruya
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-30726-6
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (XV, 364 p. 91 illus., 79 illus. in color.)
Disciplina	616.15
Soggetti	Hematology Blood transfusion Blood Transfusion Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Screening Coagulation Assays, Factor XIII and D-dimer -- Platelets -- Von Willebrand Disease Laboratory Workup -- Hyperfibrinolysis -- Whole blood assay – thromboelastometry -- Known bleeding disorders for surgery -- Hemophilia A, Hemophilia B, Congenital von Willebrand Disease & Acquired von Willebrand Syndrome -- Bleeding Associated with Coagulation Factor Inhibitors -- Pregnancy Associated Bleeding -- Bleeding Associated with Thrombocytopenia -- Bleeding in acute and chronic liver disease -- Bleeding and Hyperfibrinolysis -- Bleeding of unknown etiology -- Bleeding Associated with Disseminated Intravascular Coagulation -- Bleeding and Vitamin K Deficiency -- Bleeding in Uremia -- Bleeding associated with Trauma -- Lupus anticoagulant hypoprothrombinemia syndrome (LAHPS) -- Intracerebral Hemorrhage: An Overview of Etiology, Pathophysiology, Clinical Presentation and Advanced Treatment Strategies -- Epistaxis -- Bleeding Disorders Related to Lung Disease -- Heavy Menstrual Bleeding -- Gross Hematuria -- Upper Gastrointestinal Bleeding -- Antiplatelet and Anticoagulant Agents -- Thrombolytic therapy – tPA induced bleeding -- Bleeding associated with ECMO -- Bleeding Related to Cardiac Surgery -- Bleeding related to liver transplant -- Percutaneous image-guided interventions including solid organ biopsies -- Dental Extractions in Patients with Congenital and Acquired

Bleeding Disorders -- Neonatal thrombocytopenia -- Bleeding in the neonate -- Hemostatic agents and blood components used to stop bleeding -- Blood Components. .

---

Sommario/riassunto

This volume provides a comprehensive and state-of-the-art overview of the major issues specific to managing bleeding patients. The sections of the book have been structured to review the overall scope of issue, among them bleeding conditions, managing bleeding including clearing patients for surgery, and massive bleeding during surgery. Reflecting the multidisciplinary care that is an integral part of managing bleeding patients, the book is written by authors from a variety of integrated disciplines, including transfusion medicine, hematology, pediatric hematology, critical care medicine, pediatric critical care medicine, obstetrics, and anesthesia. The volume also includes brief etiology and a practical reference guide regarding type of blood components, medication, dose, and duration. Management of Bleeding Patients is a valuable resource for clinicians working in the area of bleeding management. .
