Record Nr.	UNINA9910254275203321
Titolo	Advances in Mathematical Economics : Volume 21 / / edited by Shigeo Kusuoka, Toru Maruyama
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2017
ISBN	981-10-4145-8
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (V, 162 p. 3 illus., 1 illus. in color.)
Collana	Advances in Mathematical Economics, , 1866-2226 ; ; 21
Disciplina	330.0151
Soggetti	Game theory
	Probabilities
	Game Theory, Economics, Social and Behav. Sciences
	Probability Theory and Stochastic Processes
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Some problems in second order evolution inclusions with boundary condition: a variational approach On Sufficiently-Diffused Information in Bayesian Games: A Dialectical Formalization On Supermartingale Problems Bolza Optimal Control Problems with Linear Equations and Periodic Convex Integrands on Large Intervals.
Sommario/riassunto	The series is designed to bring together those mathematicians who are seriously interested in getting new challenging stimuli from economic theories with those economists who are seeking effective mathematical tools for their research. A lot of economic problems can be formulated as constrained optimizations and equilibration of their solutions. Various mathematical theories have been supplying economists with indispensable machineries for these problems arising in economic theory. Conversely, mathematicians have been stimulated by various mathematical difficulties raised by economic theories.
