

1. Record Nr.	UNINA9910254461903321
Titolo	Orofacial Disorders : Current Therapies in Orofacial Pain and Oral Medicine // edited by João N. A. R. Ferreira, James Friction, Nelson Rhodus
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	3-319-51508-X
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (xiii, 354 pages) : illustrations (chiefly color)
Disciplina	617.522
Soggetti	Dentistry Oral surgery Maxillofacial surgery Pain medicine Otorhinolaryngology Neurology Oral and Maxillofacial Surgery Pain Medicine Neurology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Oral Cancer and Pre-malignant Lesions: Leukoplakia -- Etiology and Complications of Oral Cancer -- Orofacial Pain in Cancer Patients: Mechanisms and Management. Oral Mucosal Disease: Herpes Simplex -- Vesiculo- Bullous Lesions -- Candidiasis. Orofacial Disorders: Diagnosis and Management of Oral Parafunctional Behaviors -- Diagnosis and Treatment of Sleep Apnea and Snoring -- Neurosensory Disorders -- Diagnosis and Management of Malodor -- Orofacial Dystonias and Dyskinesias. Salivary Gland Dysfunction and Xeros: Etiology and Clinical Manifestations of Salivary Disorders -- Gene Transfer for Salivary Glands -- Treatment of Salivary Dysfunction in Aging Adults. Temporomandibular Disorders: Temporomandibular Joint Disorders -- Temporomandibular Muscle Disorders. Orofacial Pain Disorders: Diagnosis and Management of Non-dental tooth pain --

Diagnosis and Management of Trigeminal Neuropathic Pain and Orofacial Neuralgias -- Diagnosis and Management of Burning Mouth. Headache Management: Chronic Daily Headache -- Migraine -- Cluster and Facial Headache -- Migraine Variants. Complementary and Interdisciplinary Approaches in Personalized Pain Care: Interdisciplinary Orofacial Pain Management -- Complementary and Integrative Health Approaches in Pain Care -- Conducting a standard history and physical examination for Orofacial Disorders -- Personalized Care and Current Controversies in Orofacial Disorders.

Sommario/riassunto

This cutting-edge book is a quick reference guide to the evidence-based evaluation, diagnosis, and management of the broad spectrum of orofacial disorders. Each chapter is devoted to a particular disease or disorder and presents advances in understanding of the condition, the most recent evaluation and diagnostic strategies, and up-to-date treatment approaches. In addition, strategies for integration of care into routine dental practice are explained, and information provided on practice management concepts. The coverage encompasses the latest technological advances in the field, such as gene transfer techniques, new pharmaceuticals, innovations in craniofacial imaging, and intelligent digital records for orofacial disorders. Although the management of orofacial disorders is emerging as a distinct field of dentistry, many dentists and physicians are unfamiliar with recent advances in the care of patients with orofacial disorders, orofacial pain, and headache. This book, written by world class experts, is deliberately geared to the level of understanding of a clinician nonscientist. It will serve as an ideal evidence-based reference and source of specific clinical recommendations in daily practice. .
