

1. Record Nr.	UNINA9910254463603321
Titolo	Cytopathology // edited by Fernando Schmitt
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	3-319-33286-4
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (649 illus. in color. eReference.)
Collana	Encyclopedia of Pathology, , 2366-6269
Disciplina	611.01815
Soggetti	Pathology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Acinic cell carcinoma, cytological findings -- Acute thyroiditis, cytological findings -- Adenoid cystic carcinoma, cytological findings -- Adnexal tumours of the orbit and ocular adnexa -- Adrenal myelolipoma, cytological findings -- Adrenocortical tumors, cytological findings -- Anaplastic carcinoma of thyroid, cytological findings -- Angiomyolipoma, cytological findings -- Apocrine carcinoma, cytological findings -- ASC-H -- ASC-US -- Astrocytoma, cytological findings -- Atypia, chemotherapy-associated -- Atypical glandular cells -- Atypical immature metaplasia -- Barrett`s esophagus, cytological findings -- Basal cell adenoma of salivary gland, cytological findings -- Basal cell carcinoma of the orbit and ocular adnexa -- Benign, non-neoplastic lesions and inflammatory process of the orbit -- Biliary duct brushing -- Bladder wash specimen -- Bone cysts, cytological findings -- Breast cysts, cytological findings -- Bronchial washing -- Bronchoalveolar lavage specimen -- Carcinoid, cytological findings -- Carcinoma ex Pleomorphic adenoma, cytological findings -- Cat-scratch disease, cytological findings -- Cell-blocks -- Cerebrospinal fluid, cytology of haematopoietic malignancies -- Cerebrospinal fluid, cytology of infections -- Cerebrospinal fluid, cytology of metastatic malignancies -- Cerebrospinal fluid, cytology of SNC tumours -- Cerebrospinal fluid, normal cytology -- Cholangiocarcinoma, cytological findings -- Chordomas, cytological findings -- Chromophobe renal cell carcinoma, cytological findings -- Cirrhosis, cytological findings -- Clear cell sarcoma, cytological

findings -- Colloid goiter, cytological findings -- Congenital mesoblastic nephroma, cytological findings -- Conjunctiva general aspects -- Conjunctival inflammatory lesions -- Conjunctival lymphoma -- Conjunctival melanocytic tumours -- Conjunctival papilloma -- Conjunctival squamous cell carcinoma -- Cornea cytology -- Curschmann`s spiral -- Cyst of salivary gland, cytological findings -- Cytology of the orbit and ocular adnexa -- Cytomegalovirus, cytological findings -- Cytospin -- Ductal breast carcinoma, cytological findings -- Ductal carcinoma of salivary gland, cytological findings -- Effusions associated with pneumonia -- Effusions associated with rheumatoid arthritis (RA) -- Effusions associated with systemic lupus erythematosus (SLE) -- Endocervical adenocarcinoma, in situ -- Endocervical adenocarcinoma, invasive -- Endometrial cells, smears -- Endometrioid ovarian tumors, cytological findings -- Endometriosis, cytological findings -- Eosinophilic effusions -- Ependymoma, cytological findings -- Epithelial proliferative benign lesion of the breast -- Epithelial proliferative lesion of the breast -- Epithelial-myoepithelial carcinoma of salivary gland, cytological findings -- Epithelioid sarcomas, cytological findings -- Extrauterine adenocarcinoma, cytological findings -- Eyelids cytology general aspects -- Fat necrosis, cytological findings -- Ferruginous bodies -- Fibroadenoma, cytological findings -- Fibromatosis, cytological findings -- Fine needle aspiration cytology -- Flow cytometry on FMA material -- Follicular tumor, cytological findings -- Fungi infections, cytological findings -- Germ cell neoplasias, cytological findings -- Giant cell tumours of the bone, cytological findings -- Granular cell tumor, cytological findings -- Granulomatous lymphadenitis, cytological findings -- Granulomatous thyroiditis, cytological findings -- Granulosa cell tumor of ovary, cytological findings -- Gynecomastia, cytological findings -- Hashimoto thyroiditis, cytological findings -- Hepatoblastoma, cytological findings -- Hepatocellular carcinoma, cytological findings -- Herpes virus, cytological findings -- High grade urothelial cell carcinoma, cytological findings -- Hodgkin`s disease, cytological findings -- Human papillomavirus -- Human polyomavirus, cytological findings -- Hurthle cell tumors, cytological findings -- Hyalinizing trabecular adenoma, cytological findings -- Infectious mononucleosis, cytological findings -- Inflammatory pseudo tumours of the orbit and ocular adnexa -- Kikuchi lymphadenitis, cytological findings -- Lachrymal gland tumours of the orbit and ocular adnexa -- Lachrymal glands malignant tumours of the orbit and ocular adnexa -- Langerhans cell histiocytosis, cytological findings -- Liquid-based cytology -- Liver metastasis, cytological findings -- Lobular breast carcinoma, cytological findings -- Low-grade papillary urothelial cell carcinoma, cytological findings -- Lung metastasis, cytological findings -- Lypoma, cytological findings -- Malakoplakia, cytological findings -- Malignant melanoma of the orbit and ocular adnexa -- Mediastinal tumor, fine needle aspiration -- Medullary breast carcinoma, cytological findings -- Medullary carcinoma of thyroid, cytological findings -- Medulloblastoma, cytological findings -- Melanoma, cytological findings -- Meningioma of the orbit and ocular adnexa -- Meningioma, cytological findings -- Mesothelial cells, reactive -- Mesothelioma, effusions -- Metanephric adenoma, cytological findings -- Metaplastic breast carcinoma, cytological findings -- Metastatic adenocarcinoma, effusions -- Microglandular hyperplasia -- Molecular techniques on cytology -- Mucinous breast carcinoma, cytological findings -- Mucinous ovarian tumors, cytological findings -- Mucoepidermoid carcinoma, cytological findings -- Myxoid sarcomas, cytological findings -- Negative for intraepithelial lesions, cytological

findings -- Neuroblastoma, cytological findings -- Neuroendocrine carcinoma, cytological findings -- Nodular hyperplasia of prostate, cytological findings -- Nodular hyperplasia of thyroid, cytological findings -- Non-Hodgkin lymphomas, cytological findings -- Oligodendroglioma, cytological findings -- Orbit cytology general aspects -- Orbital cysts of the orbit and ocular adnexa -- Orbital malignant lymphoma of the orbit and ocular adnexa -- Orbital malignant tumours of the orbit and ocular adnexa -- Orbital metastases of the orbit and ocular adnexa -- Orbital soft tissue tumours of the orbit and ocular adnexa -- Osteosarcoma, cytological findings -- Other benign orbital tumours of the orbit and ocular adnexa -- Ovarian non-neoplastic cysts, cytological findings -- Pancreatic ductal adenocarcinoma (cytological aspects) -- Pancreatic intraductal papillary mucinous neoplasm (cytological aspects) -- Pancreatic lymphoepithelial cyst (cytological aspects) -- Pancreatic mucinous cystic neoplasm (cytological aspects) -- Pancreatic mucinous, noncystic adenocarcinoma (colloid carcinoma) (cytological aspects) -- Pancreatic neuroendocrine tumor (cytological aspects) -- Pancreatic pseudocyst (cytological aspects) -- Pancreatic serous cystadenoma (cytological aspects) -- Pancreatic solid-pseudopapillary neoplasm (cytological aspects) -- Papillary carcinoma of thyroid, cytological findings -- Papillary renal cell carcinoma, cytological findings -- Papillary tumors of the breast, cytological findings -- Penile neoplasias, cytological findings -- Pericardial effusions, cytological findings -- Peritoneal effusions, cytology -- Peritoneal Washings (PW) -- Pheochromocytoma, cytological findings -- Phyllodes tumor, cytological findings -- Plasmocytomas, cytological findings -- Pleomorphic adenoma of the orbit and ocular adnexa -- Pleomorphic adenoma, cytological findings -- Pleomorphic sarcomas, cytological findings -- Pleural effusions, cytology -- Pneumocystis jirovecii, cytological findings -- Polymorphous low grade adenocarcinoma, cytological findings -- Poorly differentiated carcinoma of thyroid, cytological findings -- Primitive neuroectodermal tumours (PNET), cytological findings -- Prostate adenocarcinoma, cytological findings -- Prostatitis, cytological findings -- Reactive cellular changes, infections -- Reactive cellular changes, intrauterine contraceptive device -- Reactive cellular changes, repair -- Reactive lymphoid hyperplasia, cytological findings -- Renal cell carcinoma, cytological findings -- Renal oncocyoma, cytological findings -- Reserve cell hyperplasia -- Rhabdoid tumor, cytological findings -- Rhabdomyosarcoma, cytological findings -- Rosai-Dorfman disease, cytological findings -- Round cell sarcomas, cytological findings -- Schwannoma, cytological findings -- Sebaceous carcinoma of the orbit and ocular adnexa -- Secretory carcinoma, cytological findings -- Serous ovarian tumors, cytological findings -- Sex-cord stromal tumors, cytological findings -- Small cell carcinoma, cytological findings -- Spindle cell sarcomas, cytological findings -- Squamous cell carcinoma, in situ -- Squamous cell carcinoma of the orbit and ocular adnexa -- Squamous cell carcinoma, effusions -- Squamous cell carcinoma, invasive -- Squamous intraepithelial lesion, high grade (HGSIL) -- Squamous intraepithelial lesion, low grade (LGSIL) -- Squamous metaplasia -- Squamous papilloma of the orbit and ocular adnexa -- Subareolar abscess, cytological findings -- Systemic Disease and Effusions, Cytology of -- Thymomas, cytological findings -- Toxoplasmosis, cytological findings -- Transitional cell/urothelial carcinoma, cytological findings -- Tuberculous effusions -- Undifferentiated carcinoma of the pancreas (cytological aspects) -- Undifferentiated carcinoma with osteoclast-type giant cells of the pancreas (cytological

aspects) -- Urine specimen, cytology -- Viral infections, cytological findings -- Warthin tumor, cytological findings. .

Sommario/riassunto

This book covers the complete field of the Cytopathology - from cytological findings of Acinic cell carcinoma Disease to Warthin tumor. The alphabetically arranged entries, each of which provides a detailed description of a specific pathological disease pattern, allow readers to quickly and easily find the information they need.
