

1. Record Nr.	UNINA9910254466103321
Titolo	Complications of Female Incontinence and Pelvic Reconstructive Surgery // edited by Howard B. Goldman
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Humana , 2017
ISBN	3-319-49855-X
Edizione	[2nd ed. 2017.]
Descrizione fisica	1 online resource (XVI, 333 p. 112 illus., 90 illus. in color.)
Collana	Current Clinical Urology, , 2197-7194
Disciplina	617.460082
Soggetti	Urology Gynecology Nephrology Gynecology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Taxonomy -- Patient Consent and Patient Perception of Complications -- Medico-legal implications -- General Complications -- Anterior Compartment Repair -- Posterior Compartment Repair -- Uterosacral ligament suspension -- Sacrospinous ligament suspension -- Abdominal Sacrocolpopexy Colpocleisis -- Mesh prolapse repair -- Retropubic Bladder Neck Suspension -- Pain related to synthetic slings/mesh -- Fascial -- Synthetic MUS (complications not unique to mesh) -- Synthetic MUS (mesh complication) -- Minislings -- Urethral Reconstruction -- Urethral Diverticulectomy -- Vesicovaginal and Urethrovaginal Fistula Repair -- Bladder Neck Closure -- Bladder Augmentation -- Anal Sphincteroplasty -- Labioplasty -- Martius Fat Pad Construction -- Bulking Agent Injection -- Sacral Neuromodulation -- Botulinum Toxin.
Sommario/riassunto	The second edition of this text reviews the prevention, evaluation and management of complications arising from female pelvic surgery. As the field has advanced and now become its own recognized subspeciality offering Board Certification there is even more interest in this area. This edition provides more specific detail of potential complications of robotic female pelvic surgery, different categories of

midurethral slings and specific transvaginal apical procedures. There are unique complications based on the specific mode of sling placement or apical repair and they are further subdivided in this text. Potential complications of both routine and specialized vaginal procedures such as transvaginal slings, cystocele and rectocele repairs, urethral diverticulectomy, and transvaginal mesh repairs are reviewed. The chapters are divided by procedure allowing the reader to easily find what they are looking for. Images and diagrams of methods of evaluation and repair of these complications are included. The second edition of *Complications of Female Incontinence and Pelvic Reconstructive Surgery* should serve as a reference allowing the surgeon quick and ready access to information about the complications of female pelvic surgery procedures – including detail on how to prevent, identify and manage them.
