

1. Record Nr.	UNINA9910254470803321
Titolo	The Achilles Tendon : An Atlas of Surgical Procedures // edited by Hajo Thermann, Christoph Becher, Michael R. Carmont, Jón Karlsson, Nicola Maffulli, James Calder, C. Niek van Dijk
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2017
ISBN	3-662-54074-6
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (IX, 150 p. 129 illus., 105 illus. in color.)
Disciplina	617.47
Soggetti	Orthopedics Traumatology Sports medicine Surgical Orthopedics Traumatic Surgery Sports Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Acute ruptures -- Mid portion -- Insertional -- Delayed reconstruction -- Achilles tendon lengthening -- Achilles tendon shortening.
Sommario/riassunto	This book, written by leading experts in the field, is a comprehensive guide to the best available techniques in Achilles tendon surgery. Each surgical procedure is described step by step, covering all of the approaches employed for the most common and important Achilles tendon pathologies. The clear descriptions are complemented by superb drawings prepared by a medical artist on the basis of photographs supplied by the authors. Pearls and possible pitfalls are identified to ensure optimal outcomes for patients. The book is the outcome of a collaboration among international Achilles tendon experts – the Achilles Tendon Study Group – that has already resulted in four other books on current concepts relating to the Achilles tendon. Like these previous volumes, The Achilles Tendon – An Atlas of Surgical Procedures is based on the highest level of evidence and expertise. It

will be invaluable for orthopaedic surgeons, trauma surgeons, and residents, assisting them in their daily clinical work.
