

1. Record Nr.	UNINA9910254488203321
Titolo	Tumor Dormancy and Recurrence // edited by Yuzhuo Wang, Francesco Crea
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Humana, , 2017
ISBN	3-319-59242-4
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (VII, 79 p. 7 illus. in color.)
Collana	Cancer Drug Discovery and Development, , 2196-9906
Disciplina	614.5999
Soggetti	Cancer research Cancer Research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This volume will be the first to provide a comprehensive description of tumor dormancy. It will define the clinical and biological aspects of this phenomenon, as well as the cellular and molecular mechanisms associated with tumor dormancy. Chapters will be authored by world-renewed experts who are conducting cutting-edge research in the field. A unique feature will be a conclusive paragraph detailing future development and foreseeable clinical applications at the end of each chapter. The volume will serve as a fundamental instrument for every researcher and clinician interested in the field of tumor dormancy as well as a means of disseminating stimulating concepts and prompting the development of innovative technological solutions. .
