

1. Record Nr.	UNINA9910254488503321
Titolo	Orthodontic Management of the Developing Dentition : An Evidence-Based Guide // edited by Martyn T. Cobourne
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	978-3-319-54637-7 3-319-54637-6
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (vii, 206 pages) : illustrations (chiefly color)
Disciplina	617.643
Soggetti	Dentistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Development of the Dentition -- Space loss and crowding -- First permanent molars -- Supernumerary teeth -- Tooth agenesis -- Trauma -- Eruption failure -- The maxillary canine -- Class II malocclusion -- Class III malocclusion -- Posterior crossbite.
Sommario/riassunto	This multiauthor clinical guide provides an evidence-based overview of orthodontic management during development of the dentition. It begins with an illustrated account of normal dental development and then covers the management of problems that are commonly seen during this process. These include acquired problems, such as caries, space loss and dental trauma, developmental anomalies, including variation in tooth number and eruption defects. In addition, detailed consideration is given to the interceptive management of class II and class III malocclusion and transverse discrepancies. There is an emphasis on evidence-based management of these developmental problems and each chapter is richly illustrated with clinical examples.
