

1. Record Nr.	UNINA9910254493403321
Autore	Sadeghian Hakimeh
Titolo	3D Echocardiography of Structural Heart Disease : An Imaging Atlas // by Hakimeh Sadeghian, Zahra Savand-Roomi
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	3-319-54039-4
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XIII, 625 p. 24 illus., 12 illus. in color.)
Disciplina	616.0757
Soggetti	Radiology Cardiology Imaging / Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Valvular Heart Disease -- Congenital Heart Disease -- Cardiac Masses and Tumors -- Intervention in Structural Heart Disease.
Sommario/riassunto	This atlas presents outstanding three-dimensional (3D) echocardiographic images of structural heart diseases, including congenital and valvular diseases and cardiac masses and tumors. The aim is to enable the reader to derive maximum diagnostic and treatment benefit from the modality through optimal image acquisition and interpretation. To this end a wide range of instructive individual cases are depicted, with sequential arrangement of all images and views of diagnostic value, including 3D zoom, full-volume, and live 3D images. For each case, a key lesson is highlighted and attention is drawn to aspects of relevance to diagnosis and treatment. In addition, readers will have online access to echocardiographic video clips for each patient. The closing part of the book examines the role of 3D echocardiography in structural heart disease interventions. The superb quality of the illustrations and the range of cases considered ensure that this atlas will be an excellent visual learning tool and an ideal aid for cardiology residents and fellows in day-to-day clinical practice. .
