

1. Record Nr.	UNINA9910254502603321
Titolo	Diseases of the Central Airways : A Clinical Guide // edited by Atul C. Mehta, Prasoon Jain, Thomas Gildea
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Humana, , 2016
ISBN	3-319-29830-5
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (385 p.)
Collana	Respiratory Medicine, , 2197-7372
Disciplina	610
Soggetti	Respiratory organs—Diseases Radiology Thoracic surgery Pneumology/Respiratory System Imaging / Radiology Thoracic Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Diseases of Central Airways: An Overview -- Sarcoidosis of the Upper and Lower Airways -- Airway Complications of Inflammatory Bowel Disease -- Airway Involvement in Granulomatosis with Polyangiitis -- Tracheobronchomalacia and Excessive Dynamic Airway Collapse -- Tracheobronchial Amyloidosis -- Tracheobronchopathia Osteochondroplastica -- Endobronchial Tuberculosis -- Endobronchial Fungal Infections -- Recurrent Respiratory Papillomatosis -- Parasitic Diseases of the Lung -- Tracheal Tumors -- Lymphomas of the Large Airways: A Clinical Guide -- Diffuse Idiopathic Pulmonary Neuroendocrine Cell Hyperplasia -- Black Bronchoscopy -- Airway Complications after Lung Transplantation -- Chronic Cough: An Overview for the Bronchoscopist.
Sommario/riassunto	This book explores the non-interventional aspects of interventional pulmonology, focusing on diseases of the central airways. As the field of bronchology and interventional pulmonology expands, newer conditions involving the central airways are being recognized with increasing frequency. Current literature has mainly focused on

technical aspects of the subspecialty, but this book illuminates what else interventional pulmonology has to offer the pulmonologist, including diagnosis and alternate therapeutic options. Diseases of the Central Airways: A Clinical Guide presents techniques for the diagnoses, management and treatment of patients with intriguing central airway conditions such as: black bronchoscopy, tracheobronchomalacia, endobronchial tuberculosis, and tracheobronchopathia osteochondroplastica. In-depth chapters are written by international experts and are up-to-date and comprehensive reviews. This important new book will contribute significantly to the welfare of patients with lung ailments of the central airways.
