| Nota di bibliografia | Includes bibliographical references. |
| Nota di contenuto | Front matter -- Dedication and Acknowledgments -- Contents -- Introduction -- Dao De Jing -- Notes -- Selected Bibliography |
| Sommario/riassunto | Dao De Jing is one of the richest, most suggestive, and most popular works of philosophy and literature. Composed in China between the late sixth and the late fourth centuries B.C., its enigmatic verses have inspired artists, philosophers, poets, religious thinkers, and general readers down to our own times. This new translation, both revelatory and authentic, captures much of the beauty and nuance of the original work. In an extensive and accessible commentary to his translation, Moss Roberts reveals new depths of Dao De Jing. This edition is distinguished by the literary quality of the translation, its new renderings for a number of the stanzas, and by Roberts's knowledgeable contextualizations. Utilizing recently discovered manuscripts and Chinese scholarship based on them, he is able to shed new light on the work's historical and philosophical contexts. This translation shows that Dao De Jing is far more than a work of personal inspiration; it is also a work of universal scope that makes penetrating comments on politics, statecraft, cosmology, aesthetics, and ethics. |

Roberts brings these themes to our attention, shows how they are integrated into the work as a whole, and demonstrates the relevance of these topics for our own times.

| Nota di contenuto | Breast Anatomy & Physiology -- Benign Diseases of the Breast -- Benign Breast Tumors -- Epidemiology, Risk Factors and Prevention -- Breast Imaging and Image-Guided Biopsy Techniques -- Lobular Carcinoma in Situ -- Ductal Carcinoma in Situ -- Biology and Genetics of Breast Cancer -- Clinical Aspects of Estrogen and Progesterone Receptors and ERBB2 Testing -- Prognostic And Predictive Factors Of Invasive Breast Cancer -- Gene Arrays, Prognosis, and Therapeutic Interventions -- Bone Marrow Micrometastases and Circulating Tumor Cells -- Pathology of Breast Cancer -- Intraoperative Pathological Examination of Breast Lesions -- Fibroepithelial Tumors of the Breast -- Mesenchymal Tumors Of The Breast. . |
| Sommario/riassunto | This first of two volumes provides and in-depth account of breast disease characteristics, imaging and diagnosis. Covering from breast anatomy and tumor biology to benign and malignant lesions this is an indispensable companion for breast specialists, medical oncologists, radiologists and pathologists. The book is organised in themed parts exploring topics such as epidemiology, risk factors, genetic biomarkers, pathological evaluation of tumors and biopsy techniques. With a high number of colored illustrations and edited by highly experienced clinicians, this work enables readers to gain an |

interdisciplinary perspective on breast diseases. Contributions from an international team of experts present invaluable insight into pathological and epidemiological aspects of breast disease. Covering both theoretical and practical aspects of breast cancer this is a highly informative and carefully presented book which will appeal to an international audience of breast cancer practitioners.
