

1. Record Nr.	UNINA9910254516103321
Titolo	Uveitis: An Update [[electronic resource] /] / edited by Jyotirmay Biswas, Parthoprattim Dutta Majumder
Pubbl/distr/stampa	New Delhi : , : Springer India : , : Imprint : Springer, , 2016
ISBN	81-322-2295-4
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (180 p.)
Disciplina	610
Soggetti	Ophthalmology Medicine Internal medicine Medicine/Public Health, general Internal Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Chapter 1 Advances in ocular toxoplasmosis -- Chapter 2 Viral anterior uveitis -- Chapter 3 Behçet disease -- Chapter 4 Biologicals in uveitis -- Chapter 5 Corticosteroid in uveitis -- Chapter 6 Glaucoma in uveitis -- Chapter 7 Ocular lesions in AIDS -- Chapter 8 imaging in uveitis -- Chapter 9 Immunosuppressives in uveitis and ocular inflammation -- Chapter 10 Intraocular lymphoma -- Chapter 11 Intermediate uveitis -- Chapter 12 Management of inflammatory CNV.-Chapter 13 Ocular parasitic infections -- Chapter 14 Ocular sarcoidosis -- Chapter 15 Intraocular tuberculosis -- Chapter 16 Paediatric uveitis -- Chapter 17 Serpiginous choroiditis -- Chapter 18 White dot syndromes.
Sommario/riassunto	This book on recent advances in uveitis provides readers with up-to-date and clinically-relevant information on 18 topics that are indispensable for everyday practice. This book is meant for bridging the gap between recent developments and their incorporation into clinical use. Written by global experts, the topics cover advances in diagnosis and treatment of distinct clinical varieties of uveitis. Additionally, the chapter on imaging describes the various imaging modalities that aid clinching the diagnosis with greater accuracy. Role of corticosteroids, their mechanism of action and various routes of

drug delivery too have been discussed in detail. Optimal use of various immunomodulators, their role, dose, mechanism of action, side effects, and monitoring during patient follow-up have been elucidated in easy-to-understand tables. There are two chapters on complications in uveitis, one on glaucoma and other on choroidal neovascularization. A chapter on pediatric uveitis highlights the challenges and provides guidance to manage this special population.
