

1. Record Nr.	UNINA9910254518703321
Titolo	The SAGES Manual Operating Through the Endoscope // edited by Matthew Kroh, Kevin M. Reavis
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-24145-1
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (492 p.)
Disciplina	610
Soggetti	Minimally invasive surgery Gastroenterology Minimally Invasive Surgery Gastroenterology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Surgical Endoscopy - A Historical Perspective -- Endoscopic Tools -- Instruments -- Operating Platforms for Surgical Endoscopy -- Endoscopic Energy Sources -- Training in Advanced Endoscopic Procedures -- Endoscopic Management of Bleeding -- Stricture Management- Interventional Options -- Endoscopic Stent Placement and Suturing: Management of Gastrointestinal Anastomotic Leaks -- Endoscopic Treatment of Gastrointestinal Fistulas -- Enteral Access: Percutaneous Endoscopic Gastrostomy, Gastrostomy- Jejunostomy, and Jejunostomy -- Endolumenal GERD Therapies -- Barrett's Esophagus -- Radiofrequency (RF) and Other Ablation Modalities -- Endoscopic Mucosal Resection: Upper Gastrointestinal Tract -- Endoscopic Mucosal Resection: Colon and Rectum -- Endoscopic Submucosal Dissection: Upper Gastrointestinal Tract -- Endoscopic Submucosal Dissection: Colon and Rectum -- Per Oral Endoscopic Myotomy (POEM) -- Endoscopic Interventions for the Thoracic Esophagus- Zenker's and other Diverticula -- Endoscopic Retrograde Cholangiopancreatography (ERCP) -- Advanced ERCP: Cholangioscopy and through the Scope Imaging -- Interventional Endoscopic Ultrasound -- Hybrid Laparoscopic and Endoscopic Techniques: Upper Gastrointestinal Tract

-- Hybrid Laparoscopic and Endoscopic Techniques: Colon and Rectum  
-- Primary Endoscopic Treatments for Morbid Obesity -- Endoscopic  
Revision Procedures after Bariatric Surgery -- Natural Orifice Trans-  
luminal Endoscopic Surgery (NOTES™) -- Future Directions for  
Endoscopic Operations.

---

Sommario/riassunto

This manual presents a comprehensive and state of the-art approach to the diverse applications of surgical techniques and procedures through the endoscopic platform. Sections address preliminary issues faced by surgeons and physicians who may be initially undertaking these new techniques. These areas include training and credentialing, as well as tools and platforms commonly used for these procedures. Subsequent chapters focus on specific disease processes and the endoscopic applications for those procedures. Each section addresses patient selection, pre-operative considerations, technical conduct of the most common operations, and avoiding complications. A brief review of the existing literature addressing the particular topic follows in each section. The text concludes with chapters on future directions and device development. Written by experts in the field, The SAGES Manual Operating Through the Endoscope is a valuable resource to experienced advanced endoscopists looking to expand the types of procedures that they currently perform, as well as trainees, including residents, fellows and medical students.
