

1. Record Nr.	UNINA9910254526403321
Autore	Bhansali Anil
Titolo	Clinical Rounds in Endocrinology [[electronic resource] ] : Volume II - Pediatric Endocrinology // by Anil Bhansali, Anuradha Aggarwal, Girish Parthan, Yashpal Gogate
Pubbl/distr/stampa	New Delhi : , : Springer India : , : Imprint : Springer, , 2016
ISBN	81-322-2815-4
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (XIX, 433 p. 193 illus., 188 illus. in color.)
Disciplina	618.924
Soggetti	Endocrinology Diabetes Pediatrics Reproductive health Reproductive Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1. Disorders of Growth and Development: Clinical Perspectives -- Chapter 2. Disorders of Growth and Development : Diagnosis and Treatment -- Chapter 3. Thyroid Disorders in Children -- Chapter 4. Childhood Cushing's Syndrome -- Chapter 5. Rickets - Osteomalacia -- Chapter 6. Precocious Puberty -- Chapter 7. Delayed Puberty -- Chapter 8. Turner Syndrome -- Chapter 9. Disorders of Sex Development -- Chapter 10. Congenital Adrenal Hyperplasia -- Chapter 11. Multiple Endocrine Neoplasia -- Chapter 12. Diabetes in the Young.
Sommario/riassunto	This book on pediatric endocrinology covers interesting and yet often challenging cases among pediatric patients in a unique Question-Answer format. Simulating the bed-side case discussions during the ward rounds, one question logically leads to another, thereby generating curiosity and promoting evidence-based medicine. Taking the readers through the entire spectrum starting from etiology and pathophysiology to clinical presentation to management principles, each question addresses one key aspect of the disorder. Described in a very simple and lucid narrative, this book ensures sound conceptual

understanding while covering each topic comprehensively. This volume covers important topics such as short stature, pubertal disorders, thyroid disorders, childhood Cushing syndrome, rickets and osteomalacia, disorder of sexual differentiation and diabetes in the young. Less common disorder such as multiple endocrine neoplasia has also been incorporated. These cases are not only seen by endocrinologists, but are also managed by paediatricians, internists, obstetricians and gynaecologists, orthopaedicians and surgeons. .
