

1. Record Nr.	UNINA9910254534603321
Autore	Brady Paula C
Titolo	Handbook of Consult and Inpatient Gynecology // by Paula C. Brady
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-27724-3
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (XII, 602 p. 99 illus., 41 illus. in color.)
Disciplina	618.1
Soggetti	Gynecology Emergency medicine Surgery Gynecology Emergency Medicine General Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	General Principles -- Part I: Emergency Care -- Pelvic Pain -- Vaginal Hemorrhage -- Ectopic Pregnancy -- Adnexal Torsion -- Pelvic Infections -- Spontaneous Abortions -- Sexual Assault -- Pediatric Gynecology -- Obstetrics in the Emergency Room -- Part II: Inpatient and Post-procedural Care -- Common Problems -- High Acuity Problems -- Laparoscopic Surgery -- Induced Abortions -- Gynecologic Oncology -- Urogynecology and Pelvic Reconstructive Surgery -- Reproductive Endocrinology and Infertility -- Patient Communications.
Sommario/riassunto	This handbook is a high-yield guide to diagnosis and management of common gynecologic problems for clinicians, residents, and medical students. It is a concise guide to gynecologic practice in emergency and inpatient settings, designed to optimize patient safety and outcomes. Common gynecologic problems are presented, including acute pelvic pain, vaginal bleeding, ectopic pregnancy, adnexal masses and torsion, spontaneous abortion, and sexual assault. This book also surveys inpatient and post-operative care of gynecologic patients, and

addresses complications and considerations specific to gynecologic oncology, urogynecology, and assisted reproduction. Each chapter offers definitions of core concepts, differential diagnoses, actions to take upon receiving the consult and assessing the patient, and key points for the history, physical, diagnostic work-up, and management.
