

1. Record Nr.	UNINA9910254544703321
Titolo	PET/CT in Neuroendocrine Tumors [[electronic resource] /] / edited by Valentina Ambrosini, Stefano Fanti
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-29203-X
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (87 p.)
Collana	PET/CT, , 2367-2439
Disciplina	616.99437
Soggetti	Nuclear medicine Oncology Neurology Nuclear Medicine Oncology Neurology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Neuroendocrine Tumours: Epidemiology -- Pathology -- Management -- Radiological Imaging -- Radionuclide Imaging. PET/ CT in Neuroendocrine Tumors: Basic Principles of PET/ CT imaging -- Radiopharmaceuticals -- PET/ CT in Neuroendocrine Tumours.
Sommario/riassunto	This pocket book provides up-to-date descriptions of the most relevant features of neuroendocrine tumors (NETs) and the imaging modalities currently available to assist specialists (clinicians, pathologists, radiologists, nuclear medicine physicians) in selecting optimal patient management based on interdisciplinary collaboration. As the title indicates, the focus is particularly on PET/CT, with coverage of basic principles, the available radiopharmaceuticals, indications, typical and atypical appearances, normal variants and artifacts, advantages, limitations, and pitfalls. In addition, succinct information is provided on the use of other imaging modalities, including SPECT, CT, and MRI, and on pathology and treatment options. Imaging teaching cases are presented, and key points are highlighted throughout. The

book is published as part of a series on hybrid imaging that is specifically aimed at referring clinicians, nuclear medicine/radiology physicians, radiographers/technologists, and nurses who routinely work in nuclear medicine and participate in multidisciplinary meetings. .
