

1. Record Nr.	UNINA9910254547103321
Autore	Kim Hee-Jin
Titolo	Clinical Anatomy of the Face for Filler and Botulinum Toxin Injection // by Hee-Jin Kim, Kyle K Seo, Hong-Ki Lee, Jisoo Kim
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2016
ISBN	981-10-0240-1
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (188 p.)
Disciplina	610
Soggetti	Dermatology Human anatomy Plastic surgery Anatomy Plastic Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Chapter 1. Anatomy of the face -- Chapter 2. Clinical anatomy for Botulinum toxin -- Chapter 3. Filler Anatomy of the Upper Face -- Chapter 4. Filler Anatomy of the Midface -- Chapter 5. Filler Anatomy of the Lower Face.
Sommario/riassunto	This book, containing more than 200 cadaveric photos and 200 illustrations, aims to familiarize physicians practicing botulinum toxin type A (BoT-A) and filler injection with the anatomy of the facial mimetic muscles, vessels, and soft tissues in order to enable them to achieve optimum cosmetic results while avoiding possible adverse events. Anatomic considerations of importance when administering BoT-A and fillers are identified and in addition invaluable clinical guidelines are provided, highlighting, for example, the preferred injection points for BoT-A and the adequate depth of filler injection. Unique insights are also offered into the differences between Asians and Caucasians with regard to relevant anatomy. The contributing authors include an anatomist who offers distinctive anatomic perspectives on BoT-A and filler treatments and three expert physicians from different specialties, namely a dermatologist, a plastic surgeon, and a cosmetic physician, who share insights gained during

extensive clinical experience in the use of BoT-A and fillers.
