

1. Record Nr.	UNINA9910254547203321
Autore	Cascella Marco
Titolo	Features and Management of the Pelvic Cancer Pain / / by Marco Cascella, Arturo Cuomo, Daniela Viscardi
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-33587-1
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (XXV, 164 p. 7 illus., 6 illus. in color.)
Disciplina	617.96
Soggetti	Anesthesiology Oncology Pain medicine Palliative treatment Orthopedics Clinical psychology Pain Medicine Palliative Care Orthopaedics Clinical Psychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Part 1. Features and Assessment -- 1. General Features of Pelvic Cancer Pain -- 2. Pelvic Pain in the Different Cancer Diseases -- 3. Pain Syndromes Associated with Cancer Therapy -- 4. Pain Assessment -- Part 2. Treatments -- 5. Pharmacological Approaches -- 6. Palliative Radiotherapy -- 7. Central Neuraxial Blocks -- 8. Neurolytic Sympathetic Plexus Blocks -- 9. Minimally Invasive Palliative Treatments -- 10. Psychological, Behavioral and Rehabilitation Approaches to Cancer Pain Management -- 11. Pain Management Team and Palliative Care Setting -- 12. Conclusion.
Sommario/riassunto	This book focuses on the features of pelvic pain in the different cancer diseases, the pain assessment tools, as well as the pharmacological and non-pharmacological approaches. Pelvic cancer pain is a common and

debilitating symptom, and pain control is a one among the main therapeutic goals throughout the duration of the disease. Because pelvic cancer pain due to primitive cancer, recurrence or metastasis is a complex clinical pathology, no single technique is often guaranteed to produce a complete pain relief. Thus, there are many treatment options, but in most cases a correct approach to pain control should be provided by a multidisciplinary team under the responsibility of a pain specialist coordinating several professionals. This book will aid several figures of practitioners, like anesthesiologists, oncologists or surgeons, in making the correct decisions in individual patients affected by cancer pain due to pelvic diseases.
