

1. Record Nr.	UNINA9910644265603321
Autore	Yilmaz Ihsan <1971->
Titolo	Religions and the Global Rise of Civilizational Populism // by Ihsan Yilmaz, Nicholas Morieson
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Palgrave Macmillan, , 2023
ISBN	9789811990526 9811990522
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (312 pages)
Collana	Palgrave Studies in Populisms, , 2731-3077
Disciplina	305
Soggetti	Religion and politics Political sociology Comparative government Politics and Religion Political Sociology Comparative Politics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Chapter 1: Religions and the Global Rise of Civilizational Populism -- Chapter 2: Civilizationalism, Religions and Populism -- Chapter 3: Islam and Civilizational Populism -- Chapter 4: Christianity and Civilizational Populism -- Chapter 5: Hinduism and Civilizational Populism -- Chapter 6: Buddhism and Civilizational Populism -- Chapter 7: Judaism and Civilizational Populism -- Chapter 8: Predicament of Civilizational Populism.
Sommario/riassunto	This books explores the rise of civilizational populism throughout the world, and its consequences. Civilizational populism posits that democracy ought to be based upon enacting the 'people's will', yet it adds a new and troubling dimension to populism's thin ideology: a civilization based classification of peoples and division of society. Today, we increasingly find not conflict between civilizations, but conflict within states over their civilizational identity. From Western Europe to Turkey, and from India and Pakistan to Indonesia, populists are increasingly employing a civilization based classification of peoples

in order to define the identities of 'the people' and their perceived enemies. This book is the first to examine civilizational populism as global phenomenon rather than a uniquely Western form of politics. Through a series of case studies, the book examines the role played by religion in forming civilizational identities, but also investigates the often deleterious consequences of civilizational populism entering the political mainstream. Prof. Ihsan Yilmaz is the Research Chair of Islamic Studies at the Alfred Deakin Institute for Citizenship and Globalisation, Deakin University, Melbourne, Australia. He is the author of many books, including most recently published *Populist and Pro-Violence State Religion: The Diyanet's Construction of Erdoanist Islam in Turkey* (2022) and *Creating the Desired Citizen: Ideology, State and Islam in Turkey* (2021). Dr. Nicholas Morieson is a Research Fellow at the Alfred Deakin Institute for Citizenship and Globalisation, Deakin University, Melbourne, Australia, and has previously worked as a lecturer at Australian Catholic University, Melbourne. He is the author of *Religion and the Populist Radical Right: Secular Christianity and Populism in Western Europe* (2021).

2. Record Nr.	UNINA9910254557703321
Titolo	3D Imaging in Endodontics : A New Era in Diagnosis and Treatment / / edited by Mohamed Fayad, BRADFORD R. JOHNSON
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-31466-1
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (VII, 152 p. 103 illus., 67 illus. in color.)
Disciplina	617.6
Soggetti	Dentistry Radiology Diagnostic Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Principles of Cone Beam Computed Tomography -- Utilization of Cone

Beam Computed Tomography in Endodontic Diagnosis -- The Impact of Cone Beam Computed Tomography in Non-surgical and Surgical Treatment Planning -- Three dimensional evaluation of internal tooth anatomy -- Non-surgical treatment utilizing Cone Beam Computed Tomography -- Surgical Treatment Utilizing Cone Beam Computed Tomography -- The Use of Cone Beam Computed Tomography in the Diagnosis and Management of Root Resorption.

Sommario/riassunto

This book is designed to provide the reader with a full understanding of the role of cone beam computed tomography (CBCT) in helping to solve many of the most challenging problems in endodontics. It will shorten the learning curve in application of this exciting imaging technique in a variety of contexts: difficult diagnostic cases, treatment planning, evaluation of internal tooth anatomy prior to root canal therapy, nonsurgical and surgical treatments, early detection and treatment of resorptive defects, and outcomes assessment. The ability to obtain an accurate 3D representation of a tooth and the surrounding structures by means of noninvasive CBCT imaging is changing the approach to clinical decision making in endodontics. Clinicians long accustomed to working in very small, three-dimensional spaces are no longer constrained by the limitations of two-dimensional imaging. The challenges of mastering the new technology can, however, be daunting. The detailed guidance contained in this book will help endodontists to take full advantage of the important benefits offered by CBCT.
