

1. Record Nr.	UNINA9910248860503321
Autore	Marx, Karl <1818-1883>
Titolo	La critica dell'anarchismo / Karl Marx, Friedrich Engels
Pubbl/distr/stampa	Milano : PGreco, 2016
ISBN	978-88-6802-154-2
Descrizione fisica	XXXIX, 529 p. ; 24 cm.
Altri autori (Persone)	Engels, Friedrich
Disciplina	335.83
Locazione	FSPBC
Collocazione	II G 293
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910254644703321
Titolo	Local Anaesthesia in Dentistry // edited by Jacques A. Baart, Henk S. Brand
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	3-319-43705-4
Edizione	[2nd ed. 2017.]
Descrizione fisica	1 online resource (x, 204 pages) : illustrations (chiefly color)
Disciplina	617.6
Soggetti	Dentistry Anesthesiology Mouth - Surgery Maxillofacial surgery Pharmacology Oral and Maxillofacial Surgery Pharmacology/Toxicology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa

Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Pain and Impulse Conduction -- Anatomy of the Trigeminal Nerve -- Pharmacology of Local Anesthetics -- General Practical Aspects -- Local Anesthesia in the Upper Jaw -- Local Anesthesia in the Lower Jaw -- Additional Anesthetic Techniques -- Microprocessor-Controlled Local Anesthesia -- Local Anesthesia in Children -- Local Complications -- Systemic Complications -- Patients at Risk -- Legal Aspects. .
Sommario/riassunto	This book, richly illustrated in full colour, is a comprehensive guide to the use of local anaesthesia in dentistry that will meet the needs of both students and dental practitioners. It provides the reader with ample background information on the origin of pain and the pharmacology of anaesthetics, and describes the anatomy of the trigeminal nerve in detail. Subsequent chapters cover key areas such as general practical aspects, local anaesthesia in the upper and the lower jaw, the use of local anaesthetics in children, local and systematic complications, and the prevention of side effects. Patients at particular risk of adverse effects are identified and attention drawn to significant legal aspects. This second edition has been completely revised, with more attention to safety, environment, and sterility. Additional injection techniques have been included, and a new chapter is devoted to microprocessor-assisted administration of anaesthetics. Throughout, care has been taken to ensure that the information is clearly presented and the text is easy to read. .
