

1. Record Nr.	UNINA9910254648003321
Titolo	PET/CT in Colorectal Cancer // edited by Yong Du
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	3-319-54837-9
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XV, 79 p. 6 illus., 3 illus. in color.)
Collana	PET/CT, , 2367-2439
Disciplina	616.07575
Soggetti	Nuclear medicine Oncology Nuclear Medicine Oncology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Introduction of Colorectal Cancer -- Pathology of Colorectal Cancer -- Management of Colorectal Cancer -- Radiological Imaging of Colorectal Cancer -- 18F-FDG PET-CT: Normal variants, artefacts and pitfalls in colorectal cancer -- PET/CT in Colorectal Cancer -- PET-CT in Colorectal cancer-Pictorial Atlas.
Sommario/riassunto	This book is a pocket guide to the science and practice of PET/CT imaging of colorectal malignancies. The role of PET/CT in these patients, the characteristic PET/CT findings, and the advantages and limitations of this hybrid modality are all clearly described. In addition, information is provided on clinical presentation, diagnosis, staging, pathology, management, and radiological imaging. The book is published within the Springer series Clinicians' Guides to Radionuclide Hybrid Imaging, which is aimed at nuclear medicine/radiology residents and physicians, referring clinicians, radiographers/technologists, and nurses who routinely work in nuclear medicine and participate in multidisciplinary meetings. Compiled under the auspices of the British Nuclear Medicine Society, the series is the joint work of many colleagues and professionals worldwide who share a common vision and purpose in promoting and supporting nuclear medicine as an important imaging specialty for the diagnosis and management of

oncological and non-oncological conditions.
