

1. Record Nr.	UNINA9910254655503321
Titolo	Ocular Tuberculosis // edited by Atul Kumar, Rohan Chawla, Namrata Sharma
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	3-319-57520-1
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XI, 136 p. 61 illus., 56 illus. in color.)
Collana	Essentials in Ophthalmology, , 1612-3212
Disciplina	616.99284
Soggetti	Ophthalmology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	1.Epidemiological Aspect of Ocular Tuberculosis -- 2.Pathogenesis and Pathology of Ocular Tuberculosis -- 3.Imaging Studies for Ocular Tuberculosis -- 4.Laboratory and Radiological Investigations in Diagnosis of Ocular Tuberculosis -- 5.Tuberculin Skin Test and Interferon Release Assays in the Diagnosis of Ocular Tuberculosis -- 6.Management of Ocular Tuberculosis -- 7.Tubercular Uveitis -- 8. Tubercular Multifocal Serpiginoid Choroiditis -- 9.Tubercular Retinitis and Retinal Vasculitis -- 10.Tubercular Optic Neuropathy -- 11.Ocular Tuberculosis in Immunocompromised Patients -- 12.Conjunctival and Corneal Tuberculosis -- 13.Tubercular Scleritis -- 14.Orbital and Periorbital Tuberculosis.
Sommario/riassunto	A concise guide for ophthalmologists detailing tuberculosis, which can cause disease in multiple organs throughout the body, including the eye. Tuberculosis is an infection caused by Mycobacterium tuberculosis. It can affect any part of the eye (intraocular, superficial or surrounding the eye), with or without presence of systemic involvement. Difficulty in obtaining adequate ocular tissue for histopathological and microbiological analysis makes it difficult to conclusively establish a diagnosis of tuberculosis in ocular disorders. Ocular Tuberculosis is a text devoted to in-depth coverage of this topic. Written and edited by international leaders in the field, discussing detailed and practical information on everything from

clinical features, ocular imaging studies, and pathology, to investigations, treatment and surgical management of this disease, Ocular Tuberculosis is a truly comprehensive text.
