

1. Record Nr.	UNINA9910254657103321
Autore	Larner A.J
Titolo	Transient Global Amnesia : From Patient Encounter to Clinical Neuroscience // by A.J. Larner
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	3-319-54476-4
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XVI, 133 p. 6 illus., 3 illus. in color.)
Disciplina	616.8
Soggetti	Neurology Primary care (Medicine) Geriatrics Psychiatry Neurology Primary Care Medicine Geriatrics/Gerontology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	History of TGA -- Clinical features, diagnostic criteria, and possible variants of TGA -- Differential diagnosis of TGA -- Investigation and management of TGA -- Prognosis of TGA -- Epidemiology of TGA -- Aetiopathogenesis of TGA.
Sommario/riassunto	This brief, accessible book covers all aspects of transient global amnesia (TGA). First, it deals with the history of TGA before moving on to clinical and diagnostic features, and differential diagnosis. The investigation and management of TGA is then discussed, followed by treatment and prognosis. Each of the chapters is devoted to a practical and structured overview of the particular topic, with use of case studies to illustrate the material. Based in part on the author's experience of TGA cases over 15 years and in part on a review of the published literature, this book will hopefully enlighten clinicians from a broad range of medical backgrounds on the clinical features, investigation, and pathogenesis of TGA. Transient Global Amnesia is aimed at any clinician with an interest in, or who encounters patients with, acute

amnesia: neurologists, general physicians, old age psychiatrists, geriatricians, clinical neuropsychologists, and primary care physicians, as well as other professions allied to medicine with similar interests, such as members of memory assessment teams.
