Sommario/riassunto	The book presents a thorough study of the changing landscape of state-diaspora relations in Africa, as well as a robust analysis of diaspora engagement policies being pursued across the continent. As the Africa diaspora strengthens its socio-economic and political clout, countries of origin in Africa have sought to engage their citizens living

abroad. Over the past decade, the role of diaspora in the homeland development has become a core tenet of national strategies and policies. Against the backdrop of expanding globalization and deepening regional integration, the book presents a thorough study of the changing landscape of state-diaspora relations in Africa, as well as a robust analysis of diaspora engagement policies being pursued across the continent as states seek to extend rights to and extract obligations from their global citizens. .
