Autore	Cummings E. Mark
Titolo	Political Violence, Armed Conflict, and Youth Adjustment : A Developmental Psychopathology Perspective on Research and Intervention // by E. Mark Cummings, Christine E. Merrilees, Laura K. Taylor, Christina F. Mondì
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	3-319-51583-7
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XIII, 115 p. 1 illus.)
Disciplina	155.4 155.424
Soggetti	Child psychology School psychology Families Families—Social aspects Public health Child and School Psychology Family Public Health
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Chapter 1. Political Violence, Armed Conflict, and Youth Adjustment: A Worldwide Perspective -- Chapter 2. Developmental Psychopathology as a Guiding Model -- Chapter 3. A Framework: Review of Research from a Developmental Psychopathology Perspective -- Chapter 4. Tier 1 Studies: Documenting the Impact on Youth -- Chapter 5. Tier 2: Cross-Sectional Studies of Mediators, Process-Oriented Moderators, and Social-Ecological Contexts -- Chapter 6. Tier 3: Longitudinal Studies of Mediators, Moderators, and Multiple Social-Ecological Levels -- Chapter 7. Tier 4: Prevention and Intervention Research -- Chapter 8. A Vision for Future Research from a Developmental Psychopathology Perspective -- Chapter 9. Future Directions in Research and Practice. .
Sommario/riassunto	This book reviews and critiques the growing literature on youth

development under conditions of political violence and armed conflict. It presents a robust framework, based in developmental psychopathology, for evaluating current research on this topic for strength of design, methodology, and documentation. Cross-sectional and longitudinal studies from diverse regions and conflicts as well as across disciplines examine risks and challenges as well as resilience and coping as youth develop in unstable and threatening environments. In addition, this book provides strategies for designing and implementing prevention and intervention programs as well as further opportunities for expanding applied research for youth exposed to political violence and armed conflict. Topics featured in this book include: Analysis of major research on youths' normative and pathological development during political violence and war. Guidelines for assessing research studies on the impact of political violence and armed conflict on youth. The effects of social ecology factors (e.g., family, school, and community) on youth functioning. Post-traumatic stress disorder. Trauma-Focused Cognitive-Behavioral Therapy. Political Violence, Armed Conflict, and Youth Adjustment is a must-have resource for researchers, professors, clinicians/professionals, and graduate students in the fields of child and school psychology, family studies, and public health as well as developmental psychology, child and adolescent psychiatry, political science, anthropology, social and peace psychology, sociology, and ethnic studies.
