Sommario/riassunto	This book discusses the latest developments in the China Pilot Free-Trade Zone strategy. It puts forward and explains the idea that building

the Shanghai Pilot Free-Trade Zone (SFTZ) is a national test, as it is a major strategic decision to help China cope with the new situation resulting from opening-up and the further implementation of the reform. Based on China's strategic demand in the era of globalization, this book takes into account the global structure of trade, investment and changes in standards, and studies the system of SFTZ. Moreover, based on the national strategy of building international-caliber free-trade zone, it compares the SFTZ with other established free-trade zones and free-port cities. It reveals the overall SFTZ framework and explains in detail aspects of the financial system, investment management, trade supervision, taxation, offshore trade and finance, government system reform, plus the linkage mechanism of building Shanghai as an international economy, finance, trade and shipping center.
