The Antecedents of Relationship Phase Affect in Alliances -- 16. Food Safety Management through the Lens of Hybrids: The Case of Fresh Fruit and Vegetable Shippers.

---

Sommario/riassunto

This book highlights cutting-edge research in the economics and management of networks as an interdisciplinary field, offering new theoretical, empirical and practical perspectives on the management, governance, ownership and control of cooperatives, franchising networks and strategic alliances. Further, it presents a strategic group perspective on franchisers and discusses both social entrepreneurship issues in franchising and franchising strategies for Indigenous entrepreneurship in Australia. Lastly, it offers a dynamic capabilities approach to alliance portfolio management and analyses the antecedents of the transitions taking place in the lifecycles of alliances.
