An Examination of the Case of Crowdmapping -- Co-Creation and Fine-tuning of Boundary Resources in Small-scale Platformization -- Learning for Professional Competence in an IS Context -- ICT and Learning Usability at Work - Challenges and

Opportunities for Physicians in Everyday Practice.

Sommario/riassunto	This book contains the refereed proceedings of the 7th Scandinavian Conference on Information Systems, SCIS 2016, as well as of the IFIP Working Group 8.6 Conference, both held together in Ljungskile, Sweden, August 2016. The 7th SCIS conference had the theme "Living in the cloud" and highlighted the digitalization of society, that has proceeded and entered almost all aspects of our lives. The double-blind review process led to the acceptance of 9 out of 25 paper submitted. For the IFIP 8.6 conference, the theme in 2016 was "Diffusion of IS for Learning New Practices" and addressed issues related to learning of new practices from both organizational and societal perspectives traditionally covered by the IFIP Working Group 8.6. For this conference, 4 out of 11 manuscript were accepted for presentation.
