1. Record Nr.   UNINA9910254948303321

   Titolo   Transforming Healthcare Through Information Systems [[electronic resource]] : Proceedings of the 24th International Conference on Information Systems Development / / edited by Doug Vogel, Xitong Guo, Henry Linger, Chris Barry, Michael Lang, Christoph Schneider

   Pubbl/distr/stampa   Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016

   ISBN   3-319-30133-0

   Edizione   [1st ed. 2016.]

   Descrizione fisica   1 online resource (227 p.)

   Collana   Lecture Notes in Information Systems and Organisation, , 2195-4968 ; ; 17

   Disciplina   610.285

   Soggetti   Management information systems
                         Application software
                         Health informatics
                         Computer science
                         Business Information Systems
                         Information Systems Applications (incl. Internet)
                         Health Informatics
                         Management of Computing and Information Systems
                         Software Management

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Note generali   Description based upon print version of record.

   Nota di bibliografia Includes bibliographical references at the end of each chapters.

   Nota di contenuto   A Method for Systematic Adaptation and Synchronization of Healthcare Processes -- A Monitoring Infrastructure for the Quality Assessment of Cloud Services -- A Motivation-oriented Architecture Modelling for e-Healthcare Prosumption -- A Proposed Framework for Examining Information Systems Security Research: A Multilevel Perspective -- An Agile Enterprise Architecture Driven Model for Geographically Distributed Agile Development -- Community-Based Message Opportunistic Transmission -- Educational Artefacts as a Foundation for Development of Remote Speech-Language Therapies -- Framing or Gaming? Constructing a Study to Explore the Impact of Option Presentation on Consumers -- How Mentorship Improves Reverse

Transfer of Tacit Knowledge in Chinese Multinational Companies (MNCs) -- Optimal Requirements-Dependent Model-Driven Agent Development -- Supporting People to Age-in-Place: Prototyping a Multi-sided Health and Wellbeing Platform in a Living Lab Setting -- The Perceived Impact of the Agile Development and Project Management Method Scrum on Team Leadership in Information Systems Development -- The Roles of Complementary and Supplementary Fit in Predicting Online Brand Community Users' Willingness to Contribute -- Understanding Digital Inequality: Studying the Use of Mobile Business Supporting Features in China -- Understanding Problematic Smartphone Use and its Characteristics: A Perspective on Behavioral Addiction. .

| Sommario/riassunto | This book introduces ongoing reflections within the research community on established information systems development topics and emerging concepts, approaches and ideas in the field of healthcare information systems. By promoting research on theoretical and methodological issues related to both information systems development in general and healthcare information systems in particular, it presents current research in order to promote improved practice. It comprises a selection of the best papers presented at the 24th International Conference on Information Systems Development (ISD) held in Harbin, China, August 25 – 27, 2015. |
